

OPENSOURCE AGILITY

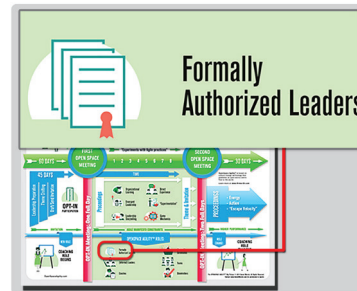

Is your existing Agile adoption in trouble?

Do you want to get the greatest possible results at the lowest possible cost?

OpenSpace Agility is a freely available, simple, effective, open-source framework for implementing Agile in an Agile way.

OpenSpaceAgility.com

HOW IT WORKS

Company leaders set the vision:
An Agile direction
Constrained by The Agile Manifesto

Company leaders refrain from imposing specific practices.

The leaders invite everyone to an all-hands (open space) meeting of at least one day.

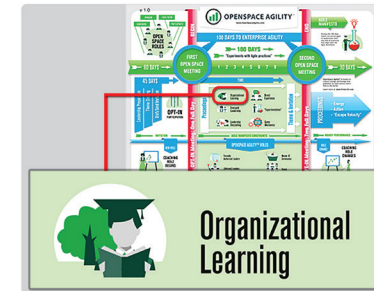

Discuss Agile practices and customizations that fit the company context.

Document and *IMPLEMENT* the best ideas.

Embark on a journey of Agile experimentation for about 100 days supported by the company leaders.

Repeat the process.

OpenSpace Agility uses experimentation...and iteration to implement and improve your Agile in an Agile way.

Intrigued?
